

Pegasus P11D Organiser is the most powerful, easy to use and competitive solution to the yearly task of completing P11D returns.

Benefits legislation has undergone many changes over the last few years. Employers are obliged to calculate cash equivalents for all benefits and expenses they provide to their employees. This can involve complex computations, and employers face stiff penalties for making mistakes.

The Class 1A National Insurance Contributions charge has been extended to apply to many other benefits, as well as the current Car and Car Fuel benefit. By using P11D Organiser you will be guaranteed that all cash equivalents are calculated correctly, thereby ensuring that the correct amount of Class 1A NIC is being paid.

Pegasus P11D Organiser is the most advanced and powerful system for managing expenses and benefits internally and for reporting their cash equivalents to the Inland Revenue. It is a complete Expenses and Management System which combines power with flexibility, making it the perfect solution not only for businesses of any size, but also for the corporate sector, accountancy practices and tax service bureaux.

Pegasus P11D Organiser has been designed with a view to eliminating exposure to erroneous or late returns. If used throughout the year as recommended, it will provide an accurate audit trail of every individual item of benefits and expenses, and can make your company audit-proof.

#### FEATURES

- IR-approved P11D / P9D / P46 (car) facsimiles
- Automatic P11D or P9D form calculation and production. Complete IR reference manuals included in comprehensive Help files
- Electronic submission to IR

*"It was immediately apparent that P11D Organiser was a user friendly system. Very little training was required and we were quickly up and running"*

West Bromwich Building Society

*"Saves hours of number crunching"*

Ericsson

*"Very user friendly, so much so that I have not yet looked at the manual... a system that takes minutes to learn and produces accurate and professional results"*
